## Archbishop Honored By Alumnae

Farewell Reception Held At St. Ann's Academy

Sound principles and sound education should go together, Archbishop J. H. MacDonald said last night in appealing to St. Ann's Alumnae and similar groups to do all in their power to foster Christian education in everyday life.

The Archbishop spoke at length at the farewell reception arranged in his honor at the academy auditorium. Sponsored by St. Ann's Alumnae, it was also attended by other convent representatives from Ireland, England, Australia, the United States and other countries. The Mother Provincial and Sister Superior were present, also Miss Nellie Redgrave, provincial federation governor of St. Ann's, and assisting the president, Miss Flora Hamilton Burns, in receiving were Mrs. M. O'Leary, the secretary, and other members of the executive.

### TAXATION BURDEN

In his thoughtful and inspiring farewell message, the Archbishop suggested that the alumnae might well take up the question of taxation of convent schools, with a view to its alleviation. Both in British Columbia and in Manitoba such schools were subject to a very heavy taxation, such as was not imposed elsewhere in the Dominion, he maintained.

In conclusion he appealed to all sections of the Catholic community to give their fullest support to the church to combat the present-day trend towards paganism.

A farewell address to Archbishop MacDonald was read by Miss Burns, testifying to the esteem in which he is held by the alumnae and their regret at his pending departure.

### CUP PRESENTED

The occasion was taken by the Archbishop to present to Sister Mary Theodore, founder and federation of the St. Ann's Alumnae in Victoria, a silver cup to be known as Mother Mary Theodore Annual Essay Award. Made as a commemoration cup on the occasion of the venerable religious's eightieth birthday last November 29, but, owing to her illness, not presented at that time, this cup is to be completed for by St. Ann's High School pupils each year, to be retained by the winner for twelve months. A cash prize goes with the award. Sister Mary Theodore very feelingly responded.

H. Bean, Linden Avenue, Victoria. Judge Quinn performed the ceremony and the bride, who was given in marriage by her mother, Mrs. Schwabe, was smartly attired in a tailored suit of slate blue wool, with which she wore a navy blue hat to match, a corsage bouquet of white gardenias, and accessories in slate blue. Attending the bride were Mrs. Barnett Joseph of Oakland, groomed in wine-colored crushed velvet, with coat of dyed ermine, and by Mrs. Jack Levy, in black with leopard-skin coat. Mr. Bert Keric supported the bridegroom. Mrs. Schwabe wore an ensemble of black and white with a corsage bouquet of blush roses. Mr. and Mrs. Gumbert left after the ceremony for San Jose to spend their honeymoon and will later make their home at 818 Vermont Avenue, Oakland, California. The bride was educated in St. Margaret's School, Victoria.

## P.T.A. at Gordon Head Is Active

At the annual meeting of the Gordon Head P.T.A., held at the school on Friday last, the following members were elected to executive positions: President, M. Dawson; vice-president, Miss H. Stewart; secretary-treasurer, Mrs. C. H. Drayton; general executive, Mesdames Boniface, Kerry Skillings and Walker.

Business discussed by the meeting included the adoption of a set of by-laws drawn up by N. C. Bell, endorsement of a request to the Saanich School Board for a high wire fence around the school yard to keep the balls within bounds, and a proposal to hold another picture show, the last-named being left to the executive to decide. The meeting was also pleased to have present Dr. Henrietta Anderson of the Provincial Normal School and Trustee F. G. Aldous.

Following the business part of the meeting, Dr. Anderson gave an interesting talk on the new curriculum in the schools. She emphasized the fact that while the trend was towards a greater development of reasoning power in the child, the necessity for a knowledge of fundamental facts must not be overlooked. She also told the parents how they could help in the supply of materials now that practical arts had been introduced into the schools. Lastly, she made a strong appeal that the ideal of absolute honesty should be held before the children constantly.

Mrs. Dawson moved a warm vote of thanks to Dr. Anderson for her most enjoyable talk. Following the meeting refreshments were served.

## Object to Ban On Marriages

**Associated Press**  
Seattle, March 2.—A protest against the proposed law to ban marriages between white persons and negroes is to be made at the Washington State Legislature today by a caravan endorsed by the youth section of the Washington Commonwealth Federation.

The federation said equal numbers of white persons and negroes would protest to legislators. The bill was introduced after the recent marriage of Delta Palmer, fourteen, white, and John Lee Menfield, thirty-eight, negro. Delta's mother, Mrs. Charles Palmer, was bound to Superior Court yesterday on a second degree perjury charge, accusing her of stating on a marriage license affidavit that her daughter was eighteen. Menfield and Palmer are charged with abetting the perjury.

Colfax Rebekahs—Owing to the number of candidates, it has been found necessary to confer the Rebekah degree on Tuesday March 9, as previously arranged. All members of the staff are requested to attend a practice on Saturday evening called for 7.30 o'clock sharp.

## English Cricketers Face Overwhelming Defeat In Final Test

### THE SPORTS MIRROR

By PETE SALLAWAY

MUCH HAS BEEN WRITTEN about the hunches of the followers of racing horses. One fan wagers on a certain horse because he likes its color. Another makes his bet because the rider is his favorite, while a fair sex fan may lay out her cash because she is struck by the colors carried by the jockey or maybe the horse is "pretty" to her way of thinking. But today we had brought to our notice something that is more than a hunch. It is one of the strangest sidelights on horse racing this writer has been told about in years. It is in connection with the annual running of the \$100,000 handicap at Santa Anita track. In the classic on Saturday the winner was Rosemount, great five-year-old of the Foxcatcher Farm.

Here's the story. For the last three years the issue of the Turf and Sport Digest, well-known magazine, published just previous to the running of the \$100,000 handicap, has carried a full page picture of the winner of the race. In the March issue this year the photo appearing on the first news page was that of Rosemount. In 1936 it was Top Row and the year previous Azucar. The magazine does not forecast a victory for the horse whose picture it publishes but just describes it as one of the contenders. It will be remembered that Azucar was a rank outsider while Top Row rated fourth or fifth choice. That just goes to prove that it has been just coincidence that the three horses published happened to be the winners.

Announcement Sunday that Rosemount will not run again, going into retirement on the stud farm of his owner, releases the handicap star in a blaze of glory. Rosemount tried for the first two Santa Anita's and raced with distinction, although failing to land in either first or second place. The son of The Porter and Garden Rose, Rosemount goes back to the brilliant line of Domino on both sides of his family. The second dam of his sire, Pink Domino, was by Domino and back to the same well-spring on his dam's side through Colin, her sire, and Commando.

One of Rosemount's greatest feats was his victory over the great Discovery in the last renewal of the Narragansett Special in which he fought it out with the Vanderbilt star right to the wire, winning by a narrow margin. The year before, 1935, he defeated William Woodward's Omaha, three-year-old champion, in the Withers Stakes at Belmont Park.

Victory of the Kimberley Dynamiters in the world amateur hockey championship at London last week was not only a triumph for hockey in Canada, but a greater success for hockey in British Columbia. In the hockey championship series of the last winter Olympic Games a team of players from eastern Canada, representing England, defeated a club of eastern Canada players wearing the colors of Canada for the championship. Now a fighting bunch of pucksters from the far west waxes that same team of Canadians representing England, to regain amateur ice honors for this Dominion. That is no small boast for the calibre of hockey as played in Canada's most western province.

Victoria will lose a number of her leading soccer players during the next few weeks. Gordon Bell, member of the Victoria West first division club, will leave this week for the Yukon where he will be employed during the summer months. Bell is rated as the finest outside-right in British Columbia. Louis DeCosta, Equimault goalie for Victoria city in intercity matches, will depart when the government survey steamer Wm. D. Stewart pulls her mooring in April. Sammy Essler, Saanich full-back and another member of Victoria United, may leave the city early in the summer. He has the prospects of a steady position in another part of the province. We understand Joe Watt, Equimault full-back, is another who may be leaving the city for the summer.

**ANGLERS MEETING**  
The annual meeting of the Victoria-Saanich Fish and Game Association will be held Thursday evening at 8 o'clock in the Chamber of Commerce auditorium. Officers for the coming season will be selected, annual reports submitted and trophies won during the year presented. Other questions of importance to all members will be brought up.

### Helpless Before Deadly Bowling Of Australians

Need 200 Runs on Two Wickets to Prevent Loss By Innings at Melbourne

#### Scored 239 In First Innings

Canadian Press  
Melbourne, Australia, March 2.—Overwhelming defeat faces England in the final cricket test match with Australia. With only two wickets to fall tomorrow the Mother Country requires 200 runs to stop the Antipodeans from winning by an innings.

Aided by a wicket made extremely difficult by overnight rain, the home bowlers routed their opponents today for totals of 239 and 165 for eight wickets. Batting throughout Friday and Saturday, Australia compiled a record score of 604.

Victory will give the Aussies the series as the teams are tied with two wins each in the five-game series. England won the first two tests at Brisbane and Sydney, but met defeat at Melbourne and Adelaide in the third and fourth encounters.

Australia's trundlers assumed the mastery when play was resumed this morning with the touring team's first innings total at 184 runs for four wickets. A drying wind following overnight rain allowed the bowlers to perform queer tricks on the treacherous pitch and although the batsmen played with extreme caution they were unable to solve the puzzling deliveries.

**ARE DISMISSED**  
At lunch the Englishmen were all out for 239. Conditions had not improved in the afternoon and wickets fell in rapid succession. Walter Hammond and Maurice Leyland, veteran stars, strove to alter the trend of the game. The Gloucestershireman hit up 56 before he was caught by Don Bradman off D. J. O'Reilly, while Leyland compiled 28. Unlike his colleagues, Hammond adopted vigorous methods and his score included nine boundaries.

Thirty-one thousand spectators saw England's fruitless effort to recapture the mythical "Ashes," emblematic of world cricket supremacy taken by the Antipodeans in the international series in England in 1934.

Joseph Hardstaff, Nottinghamshire, and R. E. S. Wyatt, Warwickshire, resumed this morning and added eighteen runs when the former fell towards mid-on off W. J. O'Reilly. E. L. McCormick made a fine run, ending with 36. The seventh wicket fell at 236, Wyatt being caught off the same bowler by Bradman at silly point. He made 38, a courageous and stubborn attempt to wear down the attack.

**ALLEN GETS LUCK**  
Leslie Ames left with no addition to the score, having made nineteen, and "Gubby" Allen, English skipper, was caught behind the wicket before he had obtained a run. Eight wickets had fallen for 236 runs. Hedley Verity was out for a "duck" and the innings closed, when W. Voce was stumped after getting three runs.

### Portland Bucs Beat Vancouver

Vancouver, March 1.—The stretch drive of the Pacific Coast Hockey League threatened today to become a one-team runaway as the league-leading Portland Buckaroos added another two points to their already fat total.

The Buckaroos proved they are still worthy of the place at the head of the league table last night as they stopped the Vancouver Canucks 3 to 2 and put a temporary end to another Vancouver drive to overhaul them.

### Syl Apps Within Point of Leader

Toronto Rookie Makes Sensational Climb in Major Hockey Scoring Race; Larry Aurie Still Tops With Forty Points

Montreal, March 2.—Rookie Sylvanus Apps, Connie Smythe's candidate for the Calder Cup, is making it a hot race for another National Hockey League honor—the league's scoring leadership. And he's just one point away from it now.

The young Toronto Maple Leaf forward picked up two points during the week, and last night's official league statistics put him a single point behind the leading Larry Aurie. Detroit Red Wings' Aurie went pointless during the week to leave his standing at twenty-two goals and eighteen assists for a forty total.

St. John's, Nfld., March 2.—The sealing craft Imogene reported today she had taken the disabled pulp carrier Edmond in tow and was bringing the freighter back to St. John's, the port she left two days ago after being held up for twelve days because of an ice blockade. Man Can Now Talk With God, Says Noted Psychologist

MOSCOW, IDAHO.—"A new and revolutionary religious teaching based entirely on the misunderstood sayings of the Galilean Carpenter, and designed to show how we may find understanding and use the same identical power which Jesus used in performing His so-called Miracles," is attracting world-wide attention to its founder, Dr. Frank B. Robinson, noted psychologist, author and lecturer.

"Psychiana," this new psychological religion, believes and teaches that it is today possible for every normal human being, understanding spiritual law as Christ understood it, to duplicate every work that the Carpenter of Galilee ever did—it believes and teaches that when He said, "The things that I do shall ye do also," "He meant what He said, and meant it literally to all mankind, through all the ages."

Dr. Robinson has prepared a 6,000-word treatise on "Psychiana," a

which he tells about his long search for the Truth, how he finally came to the full realization of an Unseen Power or force "so dynamic in itself that all other powers and forces fade into insignificance beside it"—how he learned to commune directly with the Living God, using this mighty, never-failing power to demonstrate health, happiness and financial success, and how any normal being may find and use it as Jesus did. He is now offering this treatise free to every reader of this paper who writes him.

If you want to read this "highly interesting, revolutionary and fascinating story of the discovery of a great Truth," just send your name and address to Dr. Frank B. Robinson, 19 3rd Street, Moscow, Idaho. It will be sent free and postpaid. It will be sent free and postpaid without cost or obligation. Write the Doctor today.—Copyright, 1935, Dr. Frank B. ## Idle Ships Start To Stir In Harbor

## Six Whalers Expected To Go North Again This Year and Will Soon Be Overhauled; Survey Steamer To Leave in Mid-April

As sure a sign of spring as the croaking of the frogs and the appearance of the daffodils and tulips, is the bustle and bustle that goes on at this time of year on the docks of Victoria's Inner Harbor, where ships have been idle since the days first started to close in last fall.

At the Bellevue Street docks men have been working on the Princess Louise and the Princess Victoria for some days, preparing them to relieve the Princess Adelaide and the Princess Elaine next week.

Further up in the Inner Harbor men have not actually started to work, but plans are being laid to release several ships next month—which means work of overhaul will start very shortly.

WHALERS GOING

The six whalers of the Consolidated Whaling Corporation's fleet are expected to head north to the whaling grounds off the Queen Charlotte Islands in mid-April, although the company has announced nothing definite yet.

But before they go they will be dry-docked for overhaul, cleaning and painting.

It is expected that both whaling stations in the Queen Charlotte Islands—at Rose Harbor and Naden Harbor—will be operated again this year.

The Dominion Government's hydrographic survey steamer Wm. J. Stewart is also expected to leave the harbor about April 15 to continue survey work along the British Columbia coast. Her program for the season has not yet been released by headquarters of the survey in Ottawa. She will be absent until late in September.

Blind Botanist Dies in Britain

New York, March 2.—John Grimshaw Wilkinson, eighty-one, blind botanist, who identified flowers by touching them with the tip of his tongue, and trees by the sound of raindrops on their leaves, died yesterday of a heart ailment at his home in a special cottage at The New York Times.

## Freighter With Welsh Name Coming to Drydock Here—Snohomish Expected to Go South for Star of Holland—Freighter Starts Long Voyage From Victoria—German Ship In Port for Freight—Pacific Reliance Coming for Lumber—Capt. H. D. Hinkley Passes in Seattle

The British freighter King Gruffydd—named after an early Welsh monarch—will reach Esquimalt Harbor tomorrow evening from Los Angeles and will be floated into the Dominion Government drydock there for cleaning and painting by Yarrow's Limited. It was announced this morning by King Brothers.

The King Gruffydd was built in Hongkong in 1919 at the plant of the Hongkong and Whampoa Drydock Company. She is owned by the King Line (Dodd, Thomson and Company, managers) and is registered in Lloyd's at 5,063 tons, with a length of 400 feet, a beam of fifty-two feet and a depth of twenty-eight feet. Her home-port is London.

LIFTING FREIGHT

To take a parcel of general freight, left here by European ships during the recent maritime strike, the German vessel Elbe reached Ogden Point late yesterday evening from Seattle. She will proceed to California ports tomorrow after taking about 600 tons from Victoria.

FERRY OVERHAUL

The ferry M. Cascade, operated between Mill Bay and Brentwood, will go around to Esquimalt Harbor tomorrow for overhaul on the slipway of the Yarrow plant. She will return to her regular run on Thursday morning.

GOING SOUTH

The tugboat Snohomish, recently purchased by the Island Tug and Barge Company from Seattle interests, is expected to leave the Inner Harbor this week for San Francisco to take the old sailing ship Star of Holland in tow for Victoria.

Here the Star of Holland will be converted into a barge for the carriage of hog fuel. Harold B. Elworthy, manager of the company, is at present in San Francisco in connection with the deal. The Star of Holland is expected here in about three weeks and work of conversion will be started immediately.

ON LONG VOYAGE

On a voyage that will take between forty-five and fifty days—perhaps two months, if the weather is not at its best—the British freighter Llandilo, Capt. John Jones, sailed away from Ogden Point yesterday evening at 11 o'clock.

She is going to Capetown, South Africa—just about the farthest point it's possible to get away from Victoria.

She will go about 215 miles a day on the 10,000-mile voyage, and will travel down the coasts of North and South America, through the Straits of Magellan and across the South Atlantic to Capetown. It will be early in May before she reaches her destination, and she will call at only one or two ports. She is fully laden with British Columbia lumber.

LUMBER SHIPS

King Brothers expected the Furness motorship Pacific Reliance at Ogden Point Thursday evening to load a parcel of lumber for the United Kingdom.

Saturday morning they look for the Swahly at Cowichan Bay, to load for the same destination.

NAVIGATOR DIES

Capt. Harold Dale Hinkley, fifty-nine-year-old veteran retired United States coastguard officer, who often visited Victoria, died suddenly at his home in Seattle Sunday. Capt. Hinkley served during two wars. During the "World War" he conducted more than 30,000 American soldiers across the Atlantic Ocean on transports. He served as a naval officer during the Spanish-American war. At one time he commanded the famous old cutter Bear.

TO CRUISE WORLD

Up to the present the Canadian liner Empress of Britain has been the largest liner to cruise around the world each winter. She is 42,000 tons. The Panconia and the Reliance, which also take annual world voyages, are about half the British size.

## CHARGED WITH THREE THEFTS

Louis West Admits Stealing Two Cars; Denies Guilt in Third Case

On two more charges of car thefts Louis West appeared for the second time this week in City Police Court, pleading guilty on one and not guilty on the other.

On the first charge this morning West was charged with Frank Stewart and William Rose. After originally entering pleas of not guilty the three altered their pleas to guilty. The car was one owned by F. Rainford, which was stolen and later found on Fifth Street after the three and a juvenile had driven around in it for two hours.

On a charge of stealing a car owned by Marjorie Benson, West pleaded not guilty and was also remanded until tomorrow.

Yesterday he pleaded guilty on another joint charge of stealing a car.

## Gold Mining Draws Money

"More money has been available for the development of gold mining in Canada during the last year than at any time in the history of the industry," said D. H. Angus, director of the Beattie Gold Mines and president of the Thunder Bay Lead and Zinc Mining Company, who arrived in Victoria yesterday from Halleybury, Ont. Gold mining in Canada, which has forged steadily ahead ever since President Roosevelt of the United States stabilized the price of gold at \$35 an ounce, is the basic cause of returning signs of prosperity in Quebec and Ontario, and similarly in British Columbia in the west, Mr. Angus states. He notes with interest that mining, is coming back strongly in this province.

Mr. and Mrs. Angus are making their annual visit to Victoria, and will be at the Empress Hotel for the next couple of months.

Fishing and hunting are Mr. Angus's recreational occupations, and he intends to spend a lot of his time fishing for grise in Spanish Inlet.

## SUGGESTS CITY ENTER HOUSING

Colonel Brooke Stephenson Tells Kiwanis Victoria Should Join Act

A suggestion that Victoria and the surrounding municipalities take over and guarantee loans under the Dominion Housing Act in the place of the regular loaning institutions, was put before the Kiwanis Club at its luncheon today by Colonel F. Brooke J. Stephenson, chairman of the local advisory committee on the act.

Colonel Stephenson, in a review of the operation of the housing act and of the Home Improvement Plan, expressed the opinion the act would be amended shortly to permit such action.

The city, he said, would be able to get rid of its large amounts of vacant property and put it on a taxpaying basis under such an arrangement.

## NOT WORKING PROPERLY

That the act was not at present operating in the manner which had been intended was not, he said, the fault of the loaning institutions. He suggested that the government insure the full amount of the loan, as was done in the United States. At present there was too great a burden placed on the lending institutions, with the result that it was almost impossible for a man with an income of less than \$200 per month to get a loan.

One of the chief reasons for the poor working of the act in British Columbia, said Colonel Stephenson, was that the specifications for houses had been drawn up by government architects in the east with no appreciation of the entirely different type of building used in the west.

## HOME IMPROVEMENT PLAN

The latter, he said, was working excellently, and anybody could obtain money for the modernization or repairing of his home. He urged the city to get behind the plan for the good of the city as a whole.

## OPERATORS TO GET HOLIDAYS

Anticipated costs of Victoria relief for the year from April 1, 1937, to March 31, 1938, is sought in a letter from the provincial relief administrator, E. W. Griffith, received at the City Hall today. The information is required to indicate to the Dominion Government the municipality's needs when the superior relief committee allocates for that expenditure, the letter states.

A group of General Motors Corporation of Canada officials are in the city to meet island representatives at a meeting scheduled to be held in the Empress Hotel this evening. The party includes Harry C. Lecky, manager, Vancouver; J. D. Crary, manager of General Motors Acceptance Corporation, New York; T. D. Trapp, manager, New Westminster; George Johnstone, manager for Quenell and Williams Lake territory, and Bert Chadwick, manager, Edmonton, Alta. There will be sixty representatives present at tonight's conference.

A twenty-year-old section of board sidewalk, 900 feet in length, on Esquimalt road between Dominion Road and the Thoburn Garage will be repaired in the course of routine work. Replacement with a similar wood sidewalk would cost about \$450, and construction of a gravel sidewalk, necessitating filling, draining, and the building of concrete retaining walls in a number of places, would come to about double that amount. H. F. Bourne, municipal engineer, reported to the council. Funds are not available for such work at present. The council also decided to consider the resurfacing of a section of Constance Avenue at the same time as other road maintenance work.

## PLAN TASTY REPAITS FOR CHILD'S SPRING DIET

We begin to feel the first nibblings of spring fever when the warmish days come on. There are few of us who do not suffer some whimsical vagaries of appetite which are clear evidence that most of us over-eat during the winter season.

Adults balance their own diets by simply refusing food, but some more tactful way has to be managed to weaken the children's enthusiasm for their school lunches, or even their mid-day or evening meals. We can understand well enough how tired they may be of the same kind of sandwiches, the nice wedges of cake and the warm drinks we have been forcing on them. Even though they are not aware of their need for the food, that spring foods can furnish, parents ought to know how these may be laggard appetites and aid physical slumps and change the diets in accordance with our knowledge.

Pick the noontime sandwiches with fresh, crisp, raw chopped vegetables and moisten these with boiled-salad dressing lent an unusual touch, or a blending of several. There is no nicer way to use up the extra juices from oranges or grapefruit or other tart, stewed fruits than in this particular way.

Put radishes and young, green onions on the family table and if children dislike raw onions, cook these tender, new ones and serve them with a thin cream sauce. Make the most of the lettuce and broccoli, artichokes and spinach and cabbage which fill the spring markets.

The nutritious spring tonics which we use to swallow with such hideous faces, are abundantly furnished by nature if we but heed her hints. The spring sunshine may be feeble and pale, but do not discourage children from playing in it every free moment. Let them eat eagerly of all the bounties of vegetables and fruits and we shall hear less of "being tired" and of "aching legs," and fewer whines because of having to study. The fresh elements they need and which this season so pleasantly supplies make any other tonics unnecessary.

Tomorrow—Many influences contribute to child's study desires.

## TRAVEL YEAR OUTLOOK GOOD

Returning from a trip as far north as Campbell River in the interests of the annual booklet published by the Victoria and Island publicity Bureau, Frank Gilmore reported yesterday that up-island centres expected a bigger tourist year this year than last, and already a number of hotels were preparing for the coming season.

Mr. Gilmore, was accompanied by Phil Raymond.

Two auto camps near Victoria and a lodge at the north end of the highway were being constructed at a total estimated cost of \$100,000, Mr. Gilmore reported.

According to surveys made at different points on the island, a large number of Alberta people were spreading over the island looking for dairy farms, country homes and suitable sites for auto camps.

Mr. Gilmore reported that he met with a spirit of co-operation in all centres he visited. Mayor J. Barby of Nanaimo had said the tourist business of Victoria and the upper island was interlocked, and one depended on the other.

## Tolmie Reports On Free Ports

Local Member Tells of His Plea on City's Behalf Before Senate Committee

Victoria's brief in favor of a free port here was the only document supporting the move presented to the special Senate committee in deliberations last Wednesday morning at Ottawa, Dr. S. P. Tolmie, M.P. for Victoria, informed Alderman Archie Wills, chairman of the city's business and trades development committee, in a letter received here today.

Dr. Tolmie presented the brief drafted by the city's committee in co-operation with the local Chamber of Commerce.

"I was very glad to receive your brief on free ports this morning in time to present it to the Senate committee," Dr. Tolmie's letter states. "It was the only brief presented which was in favor of free ports, the others all being opposed. The Canadian Manufacturers' Association presented one brief; the Board of Trade, Montreal, presented another brief, and the city of Vancouver sent a telegram, probably prompted by some of the eastern associations."

## SOME IN FAVOR

"I am sending you a copy of bill 'A' a Senate bill referring to this matter. This bill, of course, will have to be passed by the Senate and then fight its way through the House of Commons. I find that some of the senators are very strongly in favor of it, particularly those from Quebec."

"I remained all through the meeting this morning after my brief was finished in order to hear the other side of the case and listened to the questions," Dr. Tolmie's letter continues. "I was asked quite a number of questions, and took good care to stress particularly the fact that Victoria has located on the coast a long trade route, namely the Strait of Juan de Fuca, and that the ships crossing the Pacific had to come into quarantine on their way in."

"The brief which was prepared by you and your associates was referred to in a complimentary way by several of the senators."

"It is a little too early yet to predict just whether this bill will make both the Senate and the House of Commons. It will probably take a year or two before the people have an opportunity to learn more about it, and in the meantime, of course, we will have the free port located at Staten Island, New York City, to form further opinions as to the usefulness of free ports."

Tarzan's Quest

In agility and jungle cunning, Lady Jane was almost the equal of Tarzan, her mate. She was in fact a feminine counterpart of her jungle lord. But without the protection of his mighty strength, could she withstand the sinister power of the wilderness?

Far to the south, the storm lifted with a last dismal wail, and Tarzan resumed his trek through the soggy jungle at the head of his Wai-wai warriors. But his mate lay removed from the place where the big plane hung like a dead eagle in the trees.

As they marched, Muviro related tales and legends of the terrible Kavaru, from whom they hoped to rescue his stolen daughter. "Those," he said, "are demons with horns and tails. Some say they have no heads. All agree that they are the fiercest of men."

Tarzan gave no heed to these fancies until Muviro said: "I've heard they are savage white men, who prefer to steal white girls." The ape-man halted, choked by the thought that his own Lady Jane was in London, safe from the activities of these fiendish kidnappers.

## Dorothy Dix's Letter Box

DEAR MISS DIX—This is not the problem of a middle-aged man who has fallen for a young girl, but a middle-aged wife who has fallen in love with a callow, worthless youth.

We have been married more than fifteen years and up to two years ago lived a happy, companionable life. My wife has worked, holding a very good position. It was not because she wanted extra money for expensive clothes and luxuries. She is forty-one years old and has fallen in love with a young man in his early twenties whom she partially or wholly supports, as he is often out of work. He drinks and gambles, and several times when they were together he became too intoxicated to see her home and she had to telephone for me to come and get her. His charm seems to be that he is a good dancer, is free with compliments and flattery and takes her around to places of amusement, where she pays the bill. Anyway, she is infatuated with him and deaf to all of my pleas and the warnings of our friends that she will find no happiness with him. I asked this boy if I would give my wife a divorce if he would marry her, but he refused to answer. My wife repeatedly tells me to get out, but inasmuch as I have done nothing to disrupt our home I feel that it is not my place to go. I still love her and am willing to forget the past and start anew, but this is not what she seems to want. What shall I do?

## BROKEN-HEARTED HUSBAND.

Answer—When a middle-aged woman falls in love with a boy and makes a fool of herself over him there should be some sort of a padded cell in which she could be locked up until she regains her sanity. Unfortunately, there is nothing that can be done to keep them from wrecking their lives and bringing shame and sorrow down upon their silly heads.

They have temporarily taken leave of their senses and are deaf to reason and reckless of consequences. You just simply have to let them go their own way to destruction. Which is pretty hard on the husband if he happens to love the philandering wife and isn't so disgusted with her conduct that he is glad to be rid of bad rubbish.

An old man trailing around after a girl young enough to be his daughter is a sad enough spectacle. But a middle-aged woman in love with a boy young enough to be her son is a sight at which the angels must weep—and gag. Maybe the male parasite who sells his kisses is no worse than the female, but somehow it is more repulsive to us. So when we see an elderly woman going around with a boy friend whose clothes she buys and whose bills she pays and who we know will leave her as soon as some other old woman comes along with a longer purse, we feel that something drastic should be done to them both.

Of course, in the end she gets her punishment. Sooner or later he gets tired of faking emotion he does not feel, of telling flattering lies that feed an elderly woman's vanity and of dragging stiff bones around a ballroom floor, and she finds out that he has some girl of his own age that he is spending her money upon.

It is worse still if she marries him because the little flare of passion soon dies and then she is bored to tears with a boy with whom she has nothing in common, and weary to death of trying to keep up with him and keep him amused. It is always a misfortune for both men and women to marry out of their age class, but it is doubly disastrous to the woman who does so.

DEAR MISS DIX—I thought you might like to receive a letter from a thoroughly contented and happy woman. So here's my picture: I am young, good-looking, attractive, intelligent, well educated. I have a husband whom I love dearly and who adores me. He doesn't philander, has no vices, attends to business, and yet is a good sport. I have two darling babies, twins—one boy, one girl. I have a good maid who works hard and doesn't ask high wages. I have an admirer who is single, a pal of my husband's, who is attentive enough to keep my husband on his toes and just a wee bit jealous.

I have a family at enough distance to constitute no problems. No mother-in-law. A father-in-law who is almost like another boy friend and we have great times together. Both my husband's and my family possess a comfortable amount of money with which they are generous and which we could always count upon in an emergency. I have never lost any one I loved by death.

I have an attractive, spacious, uncluttered home, with beautiful furniture, silver and linen. I have lovely jewelry and clothes quite extensively before my marriage. Never lacked for dates. We have delightful friends. I have good health, I have a lovely dog. A new car paid for. My husband makes about \$35 a week and we get along on that with just enough worry and sacrifice to make us feel that we are achieving something. Our expensive possessions that I listed above were gifts.

You get so many letters from people who are whining and complaining, that I just wanted you to know that there is one person who is perfectly happy and contented.

## LUCKY SEVEN.

Answer—Thanks a million. It is refreshing to find that there is one woman who appreciates her blessings and enjoys them instead of beating upon her breast and walling because there is a single crumpled rose leaf under her forty mattresses of ease.

I can only hope that your luck may continue and I think it will, because with an appreciative and grateful heart like yours you will always make the most of your blessings and find something to be happy over.

## HOROSCOPE

"The stars incline, but do not compel."

WEDNESDAY, MARCH 3, 1937

Beastly aspects rule today, according to astrology, which finds the stars stimulating and encouraging in their influence. In the morning the judgment should be reliable and the vision clear. The way should be beneficial for commerce, although many extraordinary conditions will prevail.

This is an auspicious planetary government for those who start new enterprises or who enter into strange positions as employees or executives with wide authority. Industry will make steady gains and reforms affecting working conditions.

Definite agreements should be postponed and contracts should be delayed for the planets frown upon quick decisions and decisive action.
